

# Harbortouch 8020 Wireless Terminal

The Harbortouch 8020 is the most powerful all-in-one handheld wireless payment terminal available today. It is the ideal solution for businesses seeking the most effective way to complete credit card transactions off-site and boasts a wide range of payment services. The Harbortouch 8020 supports credit and debit transactions and is also equipped with an internal pin-pad, smart card reader and an easy-to-load high-speed thermal printer.

## PERFECT SOLUTION FOR MERCHANTS ON THE GO

The Harbortouch 8020 is the perfect payment terminal for all of your mobile transaction needs. The 8020 is a lightweight, handheld wireless device that works on the reliable Cingular GPRS network, allowing you to bring your products and services directly to your customers no matter where they are. The 8020 can also be combined with a headset in order to double as a cell phone, offering both voice and data transfer in real time.

## IMPRESSIVE CAPABILITIES

The Harbortouch 8020 features multi-application support, a large, back-lit graphical LCD display and an 18 button ergonomically designed back-lit keypad with programmable quick keys. The 8020 can also be enhanced with many additional features, including a touch screen for electronic signature capture, a docking station for a battery recharge and up to 6 MB of additional memory.

## ADD THIS ADVANCED WIRELESS PAYMENT TECHNOLOGY TO YOUR BUSINESS TODAY

The Harbortouch 8020's wireless functionality and dependability cannot be matched by any other wireless terminal. The 8020 is one of the most flexible terminals on the market today and its diverse features, simple to use graphical interface and compact size make it an ideal all-in-one terminal for any business. Contact Harbortouch today and add the power of wireless credit card processing to your location today!
